in financial markets

CySec

Regulator
No. 115/10 (Cyprus, EU)

Advantages of CySEC / MiFID II

- Regulation according to EU standards (MiFID II). Uniform, strict rules for investor protection throughout the European Union.
- Fund protection: Segregation of assets (held separately from broker funds) and compensation up to €20,000 (Investor Compensation Fund).
- Access to all EU markets (Passporting): CySEC license allows legal servicing of clients throughout Europe.
- High transparency and control: Regular reporting, auditing, and strict compliance.
- Reliable legal system: European law and clear mechanisms for protecting investor rights.

35,000+ instruments for portfolio diversification
